

**STUDENT CHALLENGE:  
HOW CAN WE IMPROVE HEALTH EQUITY  
& PREVENT THE NEXT PANDEMIC?**

**An International Team Challenge for pre-registration health professionals\***

Gain an increased intercultural understanding of health issues in different countries and learn how to implement the principles of science communication whilst working in an international and interprofessional team with students from U21 HSG member universities.

**TIMELINE**

**13 June**

Deadline for applications

**27 June**

Briefing on task and team allocation

**27 June - 20 July**

Research and video creation

**26 July**

Final student team reflection session

You will be given a task to formulate evidence-based recommendations to assist the WHO in improving global health equity in preparation for the next viral pandemic. You will work in small groups comprised of students from different countries and disciplines.

We welcome all pre-registration students on any healthcare-related programme
