DAVID RUSIMOVIC

A day in a life of a UCD student

There was a UCD student named David and David is just about to get his first degree so he is excited today David was in a good mood so he is breakfast. After eating David brushes his teeth.

Then David gets ready for his lesson in the lecture theatre.

Next David would meet his friend at centre in centre me and my friends get hot chocolate. After me and my friends would train in the gym. Then I would go to the football team. I would train condition and after I would talk to my friends and after I make my own steak with salad.

Then I would go to sport science. Then I would test if my training is working on a machine. Then I would see how fast I can run and how high I can jump. Then I test my technique on my friend and do a pop quiz and a exam for sport science in one day. Then I would try different sports and train those people that do different sports. And then I go to bed and read a book and sleep like a baby.

A Day In The Life Of A Veterinary Student — Kacey Murray

I woke up, ate breakfast, brushed my teeth and got dressed. After I got dressed I got my keys, said goodbye to my dog and drove to UCD. When I got there I got coffee with my friends before our lecture. We went to our lecture and then we put on our gown, hat and gloves. After that we gently took fake puppies out of a fake dog's tummy. I put the puppies in their bed and kept them nice and cosy. There were six puppies, we named them. The names were Nero, Duke, Sid, Molly, Cooper and Penny. After naming the puppies we learned about horses, we learned how to take blood out of a horse (fake) with a needle. After our lecture we played football, me and my friends won, we had a great time! After football I had to go to the lecture hall, me and my friends sat beside each other at the back. The teacher was talking about animals and how to take care of their teeth. After lecture we went home.

Day in the life of a UCD Vet Student

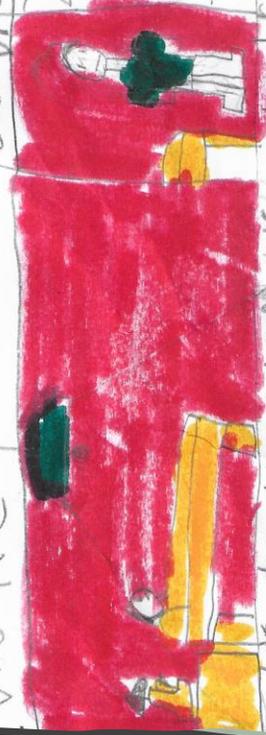

A day in the life of a ucd vet student is very long and frustrating. You either wake up in your house or apartment get some breakfast then get coffee if it's needed then you go to the veterinary clinic, you learn how to help give birth for a dog you can learn how to milk a cow and take blood from a horse.

You could go to the gym, swimming pools, basketball court and the football pitch or you could have a class in a ^{lecture} theatre about fleas or any disease. You could become an expert on any animal if you stay in college I am an expert on parrots today my patient he squawks like a dog I had another patient he was losing feathers he was shedding.

Mondays, Tuesdays and Fridays I volunteer for the D.S.P.C.A but today is Wednesday so I am watching Wakanda Forever. I also play for the U.C.D football team.

My day in UCD

29/11/22

When we got off the bus we walked to are late and there we got name tags and took are picture and after that we walked to are class Room.

When we got there the teachers told us ther names. one of them were sean nam an old student in our school he was one of the best football players in the school. after that I left my bag there but some people did not some people took there bags.

after that we got ar tour it was a bit boring but we seen how big the campus was and it was big 20K people went there thats how many people were there and thats how big it is. after that we had lunch and they gave us lunch a some writing stuff any way after that we went to the vet and there was fun we took blood out of are horse we put an tube in a dog's mouth and we got dressed like vets and helped are my give birt to a dog's and a cat and a pig yes im not joking after that we went to the hospital place and we did tests on each other it was the best thing ever we did tests lik heart rate jump level hight we hit each other on the knees with are hammer and sadly we had to leave we had to leave veld before we did we looked at are rock and it was cool when you looked in it it was the galaxy after that we got on the bus and went back to school the end

DAY IN A LIFE OF A UCD STUDENT

A day of a dietitian is tough

I wake up Get dressed brush my teeth
go get Food like a salad and eat it. Then
go to a science lab and test people means
with a test tube and see what they eat in a day
Then I go meet my friends and go to
teach people about diabetes and their
health and diets then after that I go see
people about their diets. Then I go to a
clinical skills lab and we used a knee reflex
hammer / blood oxygen levels and loads more
and after all that she still had no strength
So she stayed overnight the next day
she woke up and we examined her for diabetes
and ended up she did so we gave her
a prescription then I grab some dinner
and go to my car and drive home it takes
about 45 min then I get home eat my dinner
do my teeth get into my pyjamas and
go to bed at 11:35 pm

day in a life as being a VCD student

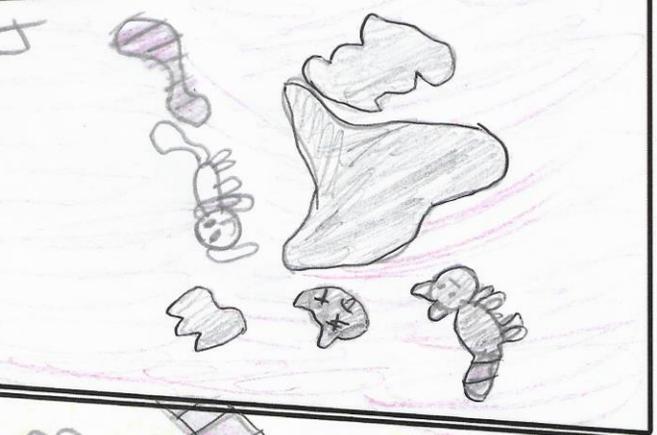

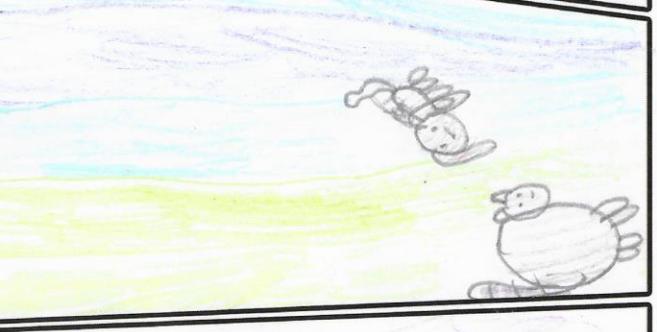

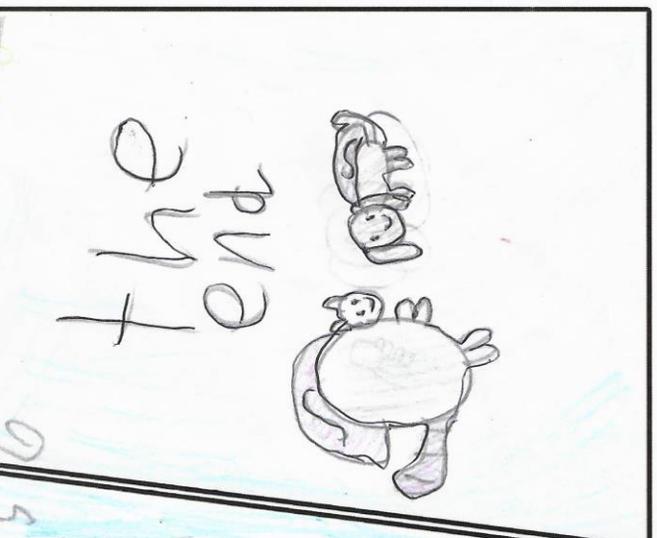

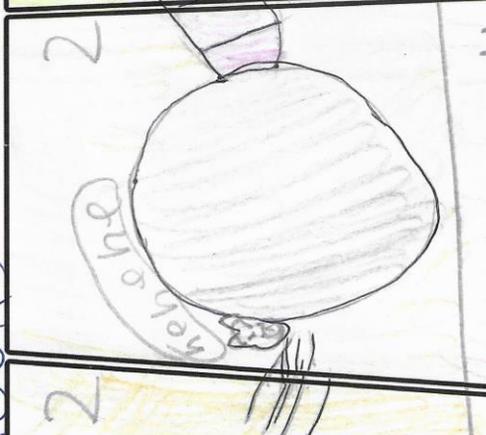

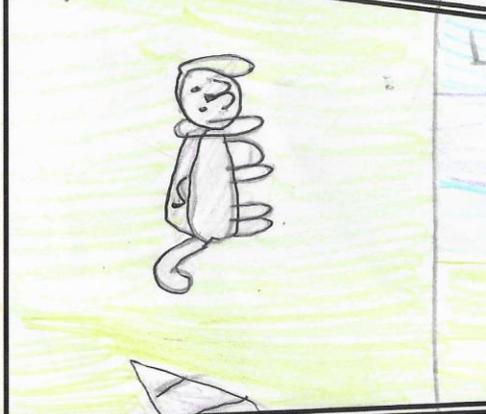

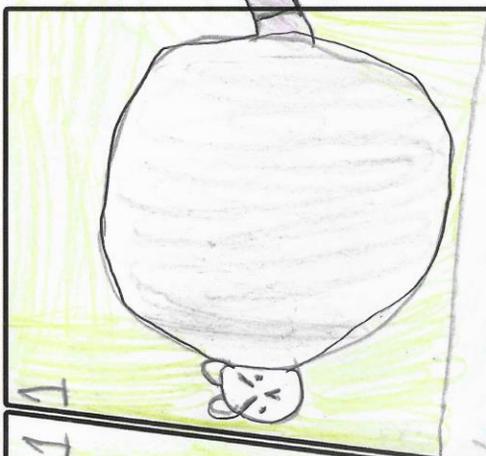

Day in a life as being a vet.

I would get up and get dressed and brush my teeth and go to my class and after study and on my break go swimming and go to the gym and go football and eat lunch and play with friends and study and then I would learn how to get surgery on a dog. And he has got a chance to join professional and they were short of people and I made it in because I study really hard and made it in and I did surgery on a dog and it was successful and he survived. And after that I was with my friends and I went to have dinner I had spaghetti for my dinner and I was talking about how surgery on the dog was and they were amazed on how I done it. And that evening I got a shower and I got in to my pyjamas and then I video called my mam and dad on how successful it was and they were very pleased they were. And that's what a day in a life of a VCD student
