Visual Aids

- “Some things have to be seen to be believed” — Ralph Hodgson
- Visual aids are not just ‘nice to have’, they are essential

What's Wrong???

The golden rules are: OHP

- Keep it **simple** at the beginning and then work towards the more **complex**
- **Start off with information that is known** to the trainees to build confidence
- **Do not overload - stage and recap**
- Present the information in a **logical sequence**
- **Involve** through questions and help the trainees to reason
- **Avoid jargon** where possible, but explain where necessary
- Use **visual aids** to aid retention and to drive the message home
- Use **humour or gravity** to make a point, but beware of too much becoming a distraction

PowerPoint Slides

- **Keep it short and simple**
- **Images**
- **Six words per line**
- **Six lines per slide**

PowerPoint Slides

- **Use standard templates**
 - **Title slide**
 - **Text slides**

- **Colours**
- **KISS**

Equipment Problems

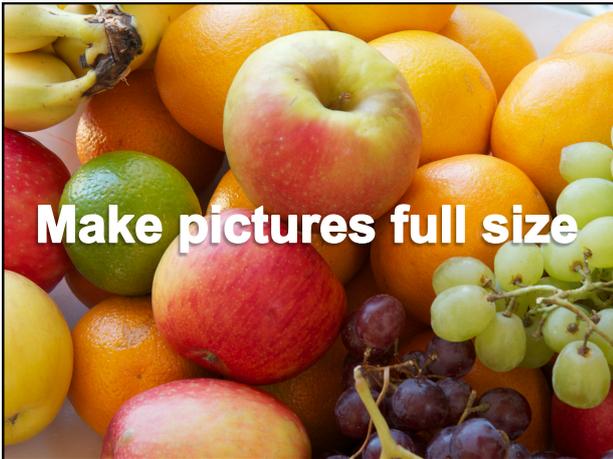

- **Projector won't work**
- **Cable problems**
- **Microphone problems**

Equipment Problems

- **Always have a Plan B!**
- **Be prepared to give your presentation without a projector**

Tips!

- Keep strictly to time
- Say “you” more than “me”
- Use their language – not yours
- Appeal to left and right brain
- Use images – actual and mental
- You are the best visual aid!
